

Subham Bisoi

Computer Science Engineering (Artificial Intelligence) AI De

Professional Summary

Motivated Computer Science Engineering (Artificial Intelligence) student with strong knowledge of Artificial Intelligence, Machine Learning, Cybersecurity, Networking, Python, SQL, and Full Stack Development. Experienced in building AI-powered applications, cybersecurity solutions, and intelligent web platforms through internships and academic projects. Passionate about solving real-world problems using Generative AI, LLMs, NLP, RAG systems, and secure software development. Quick learner with strong analytical thinking, teamwork, and problem-solving abilities, seeking opportunities to contribute to innovative technology-driven organizations.

Education

Bachelor of Technology (B.Tech) in Computer Science & Engineering (Artificial Intelligence)

Gandhi Institute of Excellent Technocrats, Bhubaneswar

2024 – Present

CGPA : 8.2

Diploma in Computer Science & Engineering

BOSE, Odisha

2021 – 2024

Percentage : 87%

Class X

Ravenshaw Collegiate School, Cuttack

2021

Percentage : 79%

Technical Skills

Programming : Python — SQL

Web Technologies

HTML — CSS — JavaScript — — Flask — Node.js — REST API(basic)

Artificial Intelligence

Machine Learning — Deep Learning (basic fundamentals)— NLP — Generative AI — — RAG

Cybersecurity

Network Security — Threat Detection — Vulnerability Assessment — Phishing Detection — Ethical Hacking

Basics

Database

— MongoDB — SQL Server

Tools

Git — GitHub — VS Code — Kali Linux — Postman — VirtualBox — Antigravity

Soft Skills

Problem Solving • Analytical Thinking • Team Collaboration • Communication Skills • Leadership • Time Management • Adaptability • Quick Learning

Internship Experience

Cybersecurity Intern

2026

MindBrain Innovation, Bhubaneswar

- Worked on vulnerability assessment, phishing detection, network security and cyber threat analysis.
- Gained hands-on exposure to cybersecurity tools and real-world security practices.
- Assisted in developing AI-based cybersecurity solutions for intelligent threat detection.

Full Stack Development Intern

2026

Techzer Pvt. Ltd.

- Developed responsive web applications using HTML, CSS, JavaScript, Flask and REST APIs.

- Worked with backend development, API integration and database connectivity.
- Improved application performance and user experience through practical implementation.

Python Developer Intern

InternPe

2026

- Built Python mini-projects to strengthen programming and problem-solving skills.
- Worked with Python libraries and automation concepts.

Web Development Intern

Codec

2026

- Completed a 1-month Web Development Internship.
- Built responsive web pages using HTML, CSS and JavaScript.
- Worked on frontend development and basic backend integration.

Python Training

IFIT, Cuttack

2026

- Completed training covering Python fundamentals, OOP concepts and application development.

SQL Training

IFIT, Cuttack

2026

- Learned SQL queries, joins, functions, constraints, normalization and database management.

Academic Projects

AI Guardian – Intelligent Cyber Safety & Threat Detection System Live Demo: <https://ai-guardian-o38i.onrender.com>

Tech Stack: Python, Flask, React.js, NLP, Machine Learning, Naive Bayes, REST API, Groq API (Llama 3)

- Developed an AI-powered cybersecurity platform to detect phishing URLs, scam messages, malicious emails and suspicious websites.
- Integrated NLP and Machine Learning models for intelligent threat classification.
- Built an AI chatbot using Llama 3 to answer cybersecurity-related queries.
- Implemented risk prediction with Safe, Suspicious and Malicious classifications.
- Designed a responsive dashboard with real-time analysis and report generation.

AI-Powered College Assistant using RAG

Tech Stack: Python, Streamlit, LangChain, FAISS Vector DB, Groq / OpenAI API, HuggingFace Embeddings

- Designed and built a Retrieval-Augmented Generation (RAG) system to answer college-related queries using custom institutional documents.
- Utilized FAISS vector database and HuggingFace embeddings for fast context retrieval.
- Deployed with a clean Streamlit UI for college-related question answering.

AI Interviewer & ATS Resume Optimizer

Tech Stack: Python, Flask, JavaScript, Node.js, MongoDB, Generative AI

- Developed an AI-powered mock interview platform with resume analysis.
- Generated interview questions dynamically using Generative AI.
- Implemented ATS resume scoring and improvement suggestions.
- Built REST APIs with secure backend and MongoDB integration.

AI Weather Forecasting System with Voice Assistant

Tech Stack: Python, OpenWeather API, SpeechRecognition, pyttsx3

- Built a weather forecasting application providing real-time weather updates.
- Integrated speech recognition and voice assistant for hands-free interaction.
- Displayed temperature, humidity, wind speed and weather conditions.

Railway Ticket Management System

Tech Stack: Python, HTML, CSS, MySQL

- Designed a railway reservation system with booking, cancellation and passenger management.
- Connected MySQL database for secure data storage and retrieval.
- Automated seat allocation and ticket management process.

KFC Billing System with Voice Assistant

Tech Stack: Python, HTML, CSS, SpeechRecognition, pyttsx3

- Developed a billing system with automated invoice generation.
- Integrated voice commands for billing operations.
- Generated digital receipts and order summaries.

Tic-Tac-Toe Game

Tech Stack: Python, Tkinter

- Developed a desktop-based Tic-Tac-Toe game with winner detection and reset functionality.

Certifications

- Cisco Networking & Cybersecurity Fundamentals
- Artificial Intelligence & Machine Learning Coursework (Coursera)
- Microsoft Graphic Design Certification
- Python Programming Certification – IFIT, Cuttack
- SQL Database Certification – IFIT, Cuttack
- Cybersecurity Internship Certificate – MindBrain Innovation
- Full Stack Development Internship Certificate – Techzex Pvt. Ltd.
- Python Developer Internship Certificate – InternPe
- Java Full Stack Internship (2 Months, Grade B) – Seeree Pvt. Ltd.

Achievements

- Secured **2nd Prize** in **Suravi Model Fiesta 2026** for developing an AI-based innovative project.
- Participated in **HackFest 2.0** and worked on the **RBI Regulatory Intelligence Dashboard** problem statement.
- Developed a **Cancer Detection System using CNN** for college Model Fiesta.
- Participated in **Suravi Tech Fest 2025** organized by GIET.
- Active participant in AI, Cybersecurity and Software Development workshops.

Languages

- English
- Hindi
- Odia

Hobbies

- Exploring Artificial Intelligence
- Solving Coding Problems
- Reading Technology Blogs
- Listening to Music
- Travelling

Strengths

- Strong Problem Solving Ability
- Fast Learner and Self Motivated
- Team Player
- Leadership Skills
- Excellent Analytical Thinking
- Adaptable to New Technologies
