PROFILE SUMMARY

Computer Science student specializing in Artificial Intelligence and Cybersecurity. Hands-on experience in web development, backend systems, and secure coding practices. Skilled in threat analysis, debugging, and implementing AI-driven tech solutions. Quick learner with strong problem-solving and technical analytical skills.

EDUCATION

- B.Tech in Computer Science (AI & Cybersecurity)

Gandhi Institute of Excellent Technocrats (GIET), Bhubaneswar | 2024 – 2027 (Expected)

- Diploma in Computer Science & Engineering (85%)

Bhubanananda Odisha School of Engineering (BOSE), Cuttack | 2021 – 2024

- Matriculation / 10th (79%)

Ravenshaw Collegiate School, Cuttack | Passout: 2021

TECHNICAL SKILLS

- Languages: Python, SQL, Java, HTML5, CSS3, JavaScript (Basic)
- Frameworks & APIs: Flask, REST APIs
- Cybersecurity & Networking: Networking Fundamentals, Linux Basics, Nmap
- AI & Machine Learning: Machine Learning (Basic), LLMs, Generative AI, Agentic AI
- Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOPs)
- Areas of Interest: Data Analytics, Web Development, Cyber Security

EXPERIENCE & INTERNSHIPS

- Full Stack Development Intern | TechZex Software Private Limited

Developed web applications using full-stack technologies and managed database integrations.

PROJECTS

- AI Guardian – Voice-Enabled Cybersecurity Assistant

Description: AI-powered cybersecurity assistant with voice interaction to detect system vulnerabilities, provide security recommendations, and answer cyber-related queries.

Tech Stack: Python, Flask, HTML, CSS, JavaScript, SQLite/MySQL, Speech Recognition, Text-to-Speech, AI API.

- Weather Forecasting System

Description: Real-time weather application with AI voice assistance for location-based weather updates and forecasts.

Tech Stack: Python, Flask, Weather API, HTML, CSS, JavaScript, Speech Recognition.

- AI Interviewer & ATS Optimizer

Description: AI-based platform that generates interview questions, conducts mock interviews, and analyzes resumes for ATS compatibility.

Tech Stack: Python, Flask, HTML, CSS, JavaScript, AI API, SQLite/MySQL.

- Password Strength Analyzer

Description: Security tool that evaluates password strength, identifies weak patterns, and estimates resistance to brute-force attacks.

Tech Stack: Python, Flask, HTML, CSS, JavaScript.

- KFC Billing System

Description: Billing application for order management, automatic bill generation, and receipt printing.

Tech Stack: Python, MySQL/SQLite, Tkinter (Desktop) / Flask, HTML, CSS, JavaScript (Web).

- Railway Ticket Management System

Description: Database-driven application for ticket booking, seat availability checking, passenger records, and train schedule management.

Tech Stack: Python/Java, MySQL, Flask / Java Swing.

- Tic-Tac-Toe Game

Description: Interactive Tic-Tac-Toe game implementing game logic, user interaction, and win/draw detection.

Tech Stack: Python/Java, Tkinter / HTML, CSS, JavaScript.

CERTIFICATIONS

- CCNA (Cisco Certified Network Associate) | Cisco
- Cybersecurity Practitioner Certificate | TryHackMe
- Cybersecurity Specialist Certification | MindBrain Innovation
- AI & Machine Learning Certification | CTTC
- Python & SQL Certification | IFIT Institute
- Full Stack Development Certification | TechZex Private Limited
- Graphic Designing Certification | Microsoft
- ESDP Certification (Entrepreneurship Skill Development Programme)

AWARDS & ACHIEVEMENTS

- 2nd Prize Winner (Model Fiesta) | Suravi Techfeast 2025 & 2026

Awarded consecutively for two years for presenting innovative technical project models.

- Awarded 2nd Prize in Quiz Competition in BPUT Project Exhibition
- Silver Badge in Python Programming in CodeChef
- Cisco Academic and Coursera Certification
- Participated in 24-Hour HackFest 2.0
- Certification from Microsoft Graphic Design

LANGUAGES & EXTRA-CURRICULAR

- Languages: English, Hindi, Odia
- Club Membership: Active Member of College Cybersecurity Club
- Hobbies: Technical typing, reading novels, teaching, travelling, and music.
